

Disease

Disease is darkest black.  
 It smells like dead animals.  
 Its taste is bitter and sour,  
 It sounds like hundreds of rats scurrying across the streets.  
 It feels damp and cold.  
 It lives in the deepest, darkest cave on Earth.

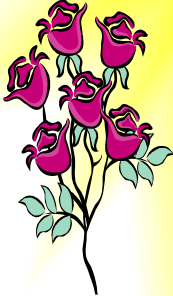

By David

H appiness

H appiness is like a bright sunny yellow in  
 Sum m er tin e,  
 It sm ells like fresh roses from the garden .  
 H appiness tastes like sweet, green ,  
 juicy apples from the trees,  
 It sounds like colourful, sm all birds singing on the tree tops.  
 It feels sm ooth and shiny like a piece of m etal.  
 Thoughts of happiness live in your heart for ever and ever.

By Sarah

Joy

Joy is the colour of a sandy yellow beach.  
 It smells like sweet candy floss.  
 It tastes of silky ,soft ,vanilla ice cream melting in the hot sun.  
 It sounds like a sweet harmonious breeze from The Antarctic Ocean.  
 It feels like a soft, wave rolling in from the sea.  
 It lives in a sunny, blue ocean in a cave on a pacific island.

Terri

Pain

Pain lives in a gloomy wet cave in the high, black mountains,  
 Pain tastes bitter and sharp.  
 Pain's colour is crimson red.  
 Pain's smell is strong and choking.  
 Pain's sound is like a band of B flat tubas.  
 Pain feels like a bed of nails and sandpaper tearing skin apart.
