

Our Visit to ASDA

On Thursday Diane showed us around Asda in Dowlais. First she showed us the fire exits. Then she showed us all the different kinds of healthy foods you can buy in Asda.

We saw goats milk and cows milk. At Asda you can buy skimmed, semi skimmed and full cream milk.

There were all different kinds of cheese from different countries. There was cheese from France, Italy, Wales and Canada.

We found nine different types of bread rolls. Some were long some were round. A long, thin loaf is called a baguette. The heaviest loaf was 800g.

We found out that one of the apples was called an Alex apple. This is funny because there is a boy called Alex in our class. The other kinds of apples were Cooking apples, Pink lady, Golden Delicious and Granny Smiths.
